PROFESSIONAL SUMMARY

Software developer, three years as the sole developer behind a manufacturing company's ERP, MES, and inventory systems, built on PHP and Microsoft SQL Server. Handle schema design, the application layer, and administration of the Linux servers it all runs on, and led the company's live e-commerce platform migration.

SKILLS

- Programming Languages: PHP, JavaScript, SQL, Python, Java
- Backend: REST API, Node.js, Express.js
- Frontend: React, HTML, CSS, responsive UI
- Database: Microsoft SQL Server, MySQL, schema design, query optimization, data migration
- Infrastructure & Tools: Linux, Apache, cPanel/WHM, Git/GitHub, Bash, AWS, Claude Code, Codex
- Domain: ERP/MES systems, OpenCart, e-commerce platforms, manufacturing operations software

WORK EXPERIENCE

Trygve Enterprises LLC DBA Fuel Cell Store, Software Developer **Bryan, TX** Aug 2023–Present

- Sole developer for an end-to-end ERP/MES-style platform on PHP and Microsoft SQL Server, independently building a 50+ table schema and 40+ operational reports to support order processing, lot-level material traceability, and fuel cell manufacturing workflows.
- Migrated a live e-commerce platform from OpenCart 1.5.6.4 to 3.0.3.8, including 2,000+ products and 70,000+ historical orders, reverse-engineering undocumented customizations from the legacy code, writing the cross-schema SQL by hand, and completing the cutover with no data loss or downtime.
- Designed and optimized complex SQL queries and relational database schemas to support reporting, data integrity, and application performance.
- Worked directly with business stakeholders to translate manufacturing and operations requirements into software features aligned with real production workflows.
- Maintain production systems and servers: Linux, cPanel/WHM VPS, multi-site PHP and database version management, and OS and database major-version upgrades.
- Use Claude Code and Codex daily for feature work, migration scripts, and debugging.

Digifinex, Software Engineering Intern **Irvine, CA** June 2022–Aug 2022

- Collaborated with product managers and senior engineers to design, analyze, and implement system features in line with business requirements.
- Developed and tested frontend and backend components to ensure reliability and performance.

EDUCATION

University of Southern California, Los Angeles, CA Aug 2020–Dec 2022
Master of Science, Computer Science

Henan University (HENU), Kaifeng, Henan, China Sep 2016–June 2020
Bachelor of Engineering, Computer Science & Technology

HONORS & AWARDS

- HENU Merit Student & Merit Scholarship 2020 & 2019 & 2018 & 2017
- 1st Place, Houston Go Tournament 2025 & 2023

INTERESTS

- Go / Weiqi — AGA 6-dan, certified national second-level referee
